Make use of use!

use is an initiative of Metropolis, World Association of the Major Metropolises. It is led and co-founded by the City of Berlin. It is supported by the Institute for Culture and Society at Western Sydney University and a global network of institutional partners and award organisations.

use. learn. explore.

Learning tool: use.case studies

- **use** hosts a growing database of international case studies that incorporate the SDGs into innovative urban practice.
- **use** partners with urban award organisations and presents their winning projects.
- All case studies are reviewed, edited and updated by a professional editorial team.
- Each case study provides a detailed description of a project, programme or policy, including background, challenges, lessons learned, impacts and an assessment of the transferability potential to another location as well as contact details for the project manager.
- Case studies can be filtered by location, Sustainable Development Goal (SDG) and a variety of topics.
- Different approaches to sustainable urban development can be easily found and quickly compared.
